Education

The University of Hong Kong
BEng in Computer Engineering

- 2022-2023 Year GPA: 3.85
- A+ in Operating Systems, Digital System Design, Probabilistic Systems Analysis
- A range in OOP and Java, Computer networks, Intro to DBMS, ML, AI, Algorithm design, Integrated design project

Sept 2019 – Now
Advanced Courses GPA 3.46

Buddhist Sin Tak College

- **IELTS (2019)**: 8.5 in Reading, 7.5 in Listening
- **DSE English**: 5* in Speaking, 5 in Writing

Sept 2013 - Jun 2019

Professional Certifications

~~AWS Certified Solutions Architect – Associate (SAA-C03)~~ — Amazon Web Services [Jun 2024]

Certificate

~~AWS Certified Developer – Associate (DVA-C02)~~ — Amazon Web Services [Jun 2024]

Certificate

~~HashiCorp Certified: Terraform Associate (HCTA0-003)~~ — HashiCorp [Jun 2024]

Certificate

Competitions, Honors and Awards

Winner – HKU Final Year Project Competition [Apr 2024]

- Distinguished as one of the **11 winners (top 8%)** among 136 HKU CE/EEE final year projects.

Finalist – HKU Generative AI Hackathon for Social Good [Oct 2023]

Link

- **Led a team of 5 developers** to secure **2nd runner-up (top 12%)** in the Productive Collaborative Work Award.
- Excelled to a **top 6** ranking out of 24 teams by developing an application targeting ADHD patients using **Java** and **React**.

Work Experience

NovBee Limited

June 2023 – January 2024

| *Full Stack Developer – Part-time*

August 2023 – January 2024

- Developing the company website and related API service using **React/Next.js**, and **FastAPI/Python**.
- Conceived and executed the **backend infrastructure** and **database schema** for the company utilizing **Azure**.
- Incorporated **user authentication** functionality into the system website.
- Ensured the website is **responsive** to provide an optimal user experience across different devices.
- Applied knowledge in **FastAPI/Python**, **React/TypeScript**, **PostgreSQL**, **GraphQL**, **Azure**.

| *Software Developer – Intern*

June 2023 – August 2023

- Engineered a data processing pipeline that gather and cleanup **500+ hours of audio data** using **Python** and **Selenium**.
- Engineered a Singing Voice Synthesis model that result in **2.83 MOS** utilizing **PyTorch**.
- Developing **5 pages** of the company website and related API service using **React/Next.js**, and **FastAPI/Python**.
- Applied knowledge in **FastAPI/Python**, **React/TypeScript**, **PostgreSQL**, **GraphQL**, **Azure**.

Homie Living

May 2022 – August 2022

| *Digital Marketing and Data Analytics Intern*

August 2023 – January 2024

- Enhanced Google search ranking of **10 keywords** to the **top 3 positions** through refined **SEO** strategies.
- Created **4 automated solutions** in Python for data visualization and analysis.
- Increased email open and engagement rates by **22%** and **17%** respectively by improving content quality.
- Applied knowledge in **Python** and **SEO**.

Projects

Wavy: Web-based Music Workstation (Individual)

Demo Video

- Enhanced UX with a **resizable, scrollable** canvas featuring **history, import/export**, and **clipboard** functionalities.
- Integrated backend voice synthesizer enabling the **generation of vocal tracks**.
- Provided an isolated library for **custom utilization** and **style modification**.
- Demo video: http://youtu.be/uQ2K_xgbq7g | Utilised: **React/TypeScript**, **FastAPI/Python**, **Jest/RTL**, **SCSS**.

ICMS: Course Management Dashboard (Group)

Demo Video

- **Led a 5-people backend development team** and was fully responsible for the **frontend** and **database** of the application.
- Provides **real-time course schedules** and information based on the user's context and timing.
- Integrated a **facial recognition** component for login using **OpenCV**.
- Utilised: **Java/Spring Boot**, **React/TypeScript**, **MySQL**, **OpenCV**.

Hooks: React Hooks and TypeScript Utilities Library (Individual)

GitHub Repo

- Designed a comprehensive collection of modular **React** hooks and **TypeScript** utilities.
- Achieved **99% test coverage** using **Jest** and **React Testing Library**.
- Integrated **GitHub Actions** for automated code testing.
- Utilised: **React/TypeScript**, **Jest/RTL**, **Github Actions**, **Rollup**.

Technical Skills

Languages	Java, TypeScript/JavaScript/Node.js, Python, PHP, SQL, GraphQL
Frameworks & Tools	Spring Boot, React/Next.js, Express.js, FastAPI
Cloud & DevOps	AWS, Azure, Terraform, Docker, GitHub Actions
Databases & ORM	Redis, MySQL, MongoDB, Hibernate, Prisma
